| The edfinity homework should be kept and the long study guides were great.                         |
| Practice problems and the mini-lecture                                                             |

| I liked the length and how the TA did a warmup.                                                    |
| The format is pretty good.                                                                         |
